Overview

- Introductions
- What is digital literacy?
- Assessing your digital literacy
- A digital literacy course I co-developed
- How to keep up with advances in ICT

You're a Millennial

Digital Natives, Digital Immigrants

“The single biggest problem facing education today is that our *Digital Immigrant* instructors, who speak an outdated language (that of the pre-digital age), are struggling to teach a population that speaks an entirely new language.”
(Prenske, 2001)

Digital Literacy

IT 2101 Computers and Your World

Students explore how computers and the Internet have revolutionized society, and become well-rounded, informed and curious users of computing technologies. This course is comprised of three modules: 1) **hardware and operating systems**, 2) **spreadsheet, presentation, and database software**, and 3) **networks, the Internet, and information literacy**. Other topics explored include **security, privacy, globalization, Web 2.0, diversity, and ethics**.

IT 2101 Computers and Your World

- Module 1: Hardware and operating systems
- Module 2: Productivity software
- Module 3: Networks, the Internet and information literacy

IT 2101 Computers and Your World

- Module 1: Hardware and operating systems
 - How to configure and purchase a PC
 - Operating system basics (Windows 7, Mac OS)
- Module 2: Productivity software
- Module 3: Networks, the Internet and information literacy

IT 2101 Computers and Your World

- Module 1: Hardware and operating systems
- **Module 2: Productivity software**
 - Solving problems with Excel, PowerPoint and Access
- Module 3: Networks, the Internet and information literacy

IT 2101 Computers and Your World

- Module 1: Hardware and operating systems
- Module 2: Productivity software
- Module 3: Networks, the Internet and information literacy
 - Building a website
 - Doing research on the Web and evaluating information sources

How can you keep up?

- Have the right attitude and frame of mind
 - “I am a lifelong learner.”
 - “I enjoy learning about how new technologies and are changing the world and can make my life and work better.”
- Take workshops/classes/seminars
- Avail yourself of myriad resources on the Web
 - A [website](#) I created for you
 - In particular, read the [Horizon Report](#)

Horizon Report

TABLE OF CONTENTS

Executive Summary	2
▪ Key Trends	
▪ Critical Challenges	
▪ Technologies to Watch	
▪ The Horizon Project	
Time-to-Adoption: One Year or Less	
Electronic Books	8
▪ Overview	
▪ Relevance for Teaching, Learning, Research, or Creative Inquiry	
▪ Electronic Books in Practice	
▪ For Further Reading	
Mobiles	12
▪ Overview	
▪ Relevance for Teaching, Learning, Research, or Creative Inquiry	
▪ Mobiles in Practice	
▪ For Further Reading	
Time-to-Adoption: Two to Three Years	
Augmented Reality	16
▪ Overview	
▪ Relevance for Teaching, Learning, Research, or Creative Inquiry	
▪ Augmented Reality in Practice	
▪ For Further Reading	
Game-Based Learning	20
▪ Overview	
▪ Relevance for Teaching, Learning, Research, or Creative Inquiry	
▪ Game-Based Learning in Practice	
▪ For Further Reading	
Time-to-Adoption: Four to Five Years	
Gesture-Based Computing	24
▪ Overview	
▪ Relevance for Teaching, Learning, Research, or Creative Inquiry	
▪ Gesture-Based Computing in Practice	
▪ For Further Reading	
Learning Analytics	28
▪ Overview	
▪ Relevance for Teaching, Learning, Research, or Creative Inquiry	
▪ Learning Analytics in Practice	
▪ For Further Reading	
Methodology	31
2011 Horizon Project Advisory Board	33
